

THE NUTRITION SOCIETY  
OF AUSTRALIA (INC.)

## **Nutrition Society of Australia invitation**

# **‘Fisheries and sustainability’**

## **Symposium**

**Wednesday 24 March 2010**

**The University of Canberra, Lecture Theatre 12B2**  
**(Building 12: enter off Ginninderra or Haydon Drive)**

**5.00pm – 6.45pm**

- 5.00 – 5.25**     **Arrival:** light refreshments
- 5.25 – 5.30**     **Welcome and introduction**  
Peta Craig  
Chair, NSA ACT Group
- 5.30 – 6.00**     **Fisheries – production statistics**  
Perry Smith  
Food Market Economist, Consultant

Perry will provide an overview of seafood supplies and their consumption in Australia, together with an examination of some of the economic and marketing issues associated with the fisheries industry.

- 6.00 – 6.30**     **Fisheries – sustainability**  
Professor Robert (Bob) Kearney  
Emeritus Professor of Fisheries, University of Canberra

Bob will present on the sustainability of the fisheries industry and defend his claim that there is no fish species in Australia that is in danger of extinction from overfishing. Bob will also discuss whether there would be enough fish to feed the population were we all to adhere to the Dietary Guidelines.

- 6.30 – 6.40**     **Discussion**

Participants will have the opportunity to quiz Perry and Bob on aspects of their presentation and invoke further discussion on the issue of fisheries production and sustainability.

- 6.40 – 6.45**     **Closing remarks, followed by refreshments**

**This event is FREE for NSA members and \$10 for others. Payment will be taken on the day.**

**Please contact NSA ACT to inform of your attendance by Monday 22 March:**
