

Dr Jeff Coombes
University of Queensland, Queensland, Australia

Jeff Coombes is an Associate Professor in the School of Human Movement Studies at the University of Queensland. Jeff completed undergraduate degrees and a research masters at the University of Tasmania before gaining a PhD from the University of Florida with a minor in nutrition. He has established the Exercise and Oxidative Stress Research Group comprising clinicians, postdoctoral fellows and research students and he is co-director of the NHMRC Clinical Centre for Research Excellence based at the Princess Alexandra Hospital in Brisbane. He has published two book chapters, over 100 Medline articles and graduated twelve research higher degree students. His research areas include the roles of exercise, oxidative stress and antioxidants in health and disease.
