

Professor Paul J Moughan, B Agr Sc (Hons), PhD, DSc, FRSNZ

Professor Paul J Moughan holds the position of Distinguished Professor, Massey University, New Zealand and is Director of the Riddet Institute. The Riddet Institute, a New Zealand government funded Centre of Research Excellence (CoRE), is a partnership between the University of Otago, Auckland University and Massey University and two New Zealand Crown Research Institutes, Plant and Food Research and AgResearch, and is dedicated to research and postgraduate education in the area of food science and human nutrition. He was formerly foundation head of the Institute of Food, Nutrition and Human Health at Massey University, Director of the University's Monogastric Research Centre and Foundation Scientific Director of the Fonterra funded Milk and Health Research Centre.

Professor Moughan was appointed to the foundation chair in monogastric biology at Massey University in 1993 and his research has encompassed the fields of human and animal nutrition, food chemistry, functional foods, mammalian growth biology and digestive physiology. He has published in excess of 300 scientific works. In 1995 he was awarded Doctor of Science and in 1997 was awarded a Personal Chair at Massey University and was elected a Fellow of the Royal Society of New Zealand. He has received several prestigious international awards for his work, sits on a number of editorial boards and is an adviser to the international food and feedstuffs industries. He is a non-executive Director of the Gardiner Foundation, Melbourne, Australia.
