

Professor Jennie Brand-Miller holds a Personal Chair in Human Nutrition at the University of Sydney. She is recognised for her work on carbohydrates and diabetes, particularly the glycemic index (or GI) of foods. She received the 2003 Clunies Ross Medal for contributions to science and technology in Australia. Her books under the series title *The New Glucose Revolution* have made the GI a household word and sold over 3.5 million copies world wide in 12 languages. She is the current Chair of the National Committee for Nutrition of the Australian Academy of Science and the President of the Glycemic Index Foundation Ltd, a not-for-profit company that administers a food symbol program for consumers in partnership with the Juvenile Diabetes Research Foundation (Australia).

Jennie is the proud recipient of two Nucleus® bionic ears.
